

Business Tax Application

NOTE: Underlying law may have changed.
See Revenue Notice 19-04 concerning nexus.

Congratulations on your decision to start a business in Kansas! One of the first tasks for any new business owner is to obtain the licenses, registration numbers, and permits required by local, state, and federal governments. As part of our commitment to the business community, the Kansas Department of Revenue (KDOR) has developed this publication to help you register for Kansas business taxes. When it comes to filing your returns and paying your taxes, businesses are required to submit their sales, use and withholding tax returns electronically. See page 12. Visit our website for the most up-to-date information.

NOTE: If you intend to apply for a federal Employer Identification Number (EIN), you should do so before completing the enclosed application form. When you receive your federal EIN, use it to complete your **Kansas Business Tax Application**.

In addition to our business tax application and instructions, this publication contains general business information, an introduction to Kansas taxes, state and federal requirements, and a resource directory. On the back cover you will find information about our business tax workshops and a list of publications on specific tax topics.

GETTING STARTED

CHOOSING A BUSINESS STRUCTURE

An important step in starting a business is to select the type of business structure or organization you will use. The organization of a business defines the ownership and responsibilities of the owner(s) and each type has advantages, disadvantages and tax consequences you should be aware of before making a final decision. You may wish to consult a tax practitioner (accountant, enrolled agent, attorney, etc.) or one of the agencies listed in the *Resource Directory* on page 14 for information that can assist you in establishing your business structure. The following are the most common types of a business organization.

- **SOLE PROPRIETORSHIP.** A sole proprietorship is a business owned and operated directly by one person. This is the simplest and most common form of small business organization. Income earned by the business is reported on the owner's individual income tax return. Sole proprietors may need to make estimated tax payments because income taxes are not withheld from their business income. A sole proprietor is not an employee of the business.
- **GENERAL PARTNERSHIP.** A partnership is a business owned by two or more persons. Each partner contributes money, property, labor or skills, and each shares in the profits, losses, and debts. A partnership is not a taxable entity. Each partner must include his or her share of income (or loss) from the partnership on his or her personal income tax return. Like sole proprietors, personal income taxes are usually not withheld for the partners and estimated tax payments may be required.
- **C CORPORATION.** A corporation is a legal entity created under state or federal law with an existence separate and apart from its members or stakeholders. Corporations report business income on a corporate income tax return, and may need to file estimated tax payments. Corporations also have additional reporting and registration obligations to the Secretary of State.

- **S CORPORATION.** S corporations are generally not taxable entities. Shareholders include their share of the S corporation's income (or loss) on their personal income tax return.
- **LIMITED LIABILITY COMPANY.** The Limited Liability Company (LLC) is a business owned by one or more members. It has some aspects of a partnership and some of a corporation. Business income from a limited liability company may be taxed as a corporation or as a partnership. Limited liability companies must register with the Secretary of State.
- **OTHER.** Includes estates, business trusts, personal trusts, unincorporated organizations or associations.

RECORD KEEPING

Good record keeping is essential to the success of any business, and is a necessary part of your compliance with state and federal tax laws. The type and complexity of the records you keep depend entirely on the nature of your business and the amount of detail required. No matter how simple or complex, your records must be accurate, neat, and detail all aspects of your business operation. Keep your business records separate from your personal financial records. If you own more than one business, each should have its own set of books. You should maintain your records for your current year of business and at least three prior years.

CERTIFICATE OF TAX CLEARANCE

Business owners are required to meet certain obligations under Kansas law, including filing timely tax returns with full payment. As a successor of a business, you may be responsible for tax debts incurred by the previous owner of the business. You can be released of that obligation when the previous owner produces a tax clearance certificate or letter from the Kansas Department of Revenue (KDOR) stating that no taxes are due.

A **tax clearance** is a comprehensive review of an entity's account to determine if it is in compliance with all applicable Kansas tax laws, taxes, fees, and payments administered by the Department of Revenue and other Kansas state agencies.

A **tax clearance certificate** or letter provides an official statement as to the results of an account review done by the Department of Revenue. Tax clearance results do not clear you of any liabilities, but rather state that you, or the business, is in current good standing with the Department of Revenue.

To **apply for a tax clearance**, log on to the Department of Revenue website (ksrevenue.org) and click the *Tax Clearance Information* link. You will be asked to provide identifying information and answer some questions. Upon submission you will be issued a Transaction ID. It is important that you retain this ID, as you will need it to retrieve your “tax clearance status” the following business day.

ACCOUNTING METHODS

Accounting methods are ways of recording income and expenses. There are two accepted methods of accounting – **cash** basis and **accrual** basis.

- Cash basis accounting reports income in the period received and expenses in the period paid.
- Accrual basis accounting reports income when earned (regardless of when payment is received), and expenses when incurred (regardless of when paid).

The method you select depends on the nature and complexity of your business and the amount of detail you need to make business and financial decisions. Choose the method that fits your business and provides you with a complete, accurate and understandable picture of your financial condition. The method chosen must be the same for the Department of Revenue and the Internal Revenue Service (IRS). **Important**—once established, you may not change accounting methods without prior written approval from the IRS and/or the Kansas Department of Revenue.

COMPLETING THE BUSINESS TAX APPLICATION

WHEN AND HOW TO APPLY

You should begin the application process 3 to 4 weeks prior to your start date. For example, if you plan to open on January 1, then complete an application no later than December 1. Applications are accepted online, by mail, by fax, or in person.

For online registration, visit ksrevenue.org and sign in to the KDOR Customer Service Center. After you complete the application you will receive a confirmation number for your registration and account number(s).

If you prefer, you may apply in person – it provides same-day registration service. An owner, partner, or a principal officer (president, vice-president, or secretary-treasurer) may bring the completed application to our assistance center. We will process your application, assign a registration number, and issue a Certificate of Registration if you have no outstanding tax liability.

Another option is to mail or fax your completed business tax application to our office 3-4 weeks prior to your start date. This will ensure that your tax account number and registration certificate are issued before any tax payment are due.

GENERAL INSTRUCTIONS

Use the Business Tax Application (CR-16) to obtain a registration number or license to collect and *electronically*

remit most of the business taxes administered by the Department of Revenue. To register more than one location, complete Kansas Registration Schedule for Additional Business Locations (CR-17) for each location.

Form CR-16 (page 7) has twelve parts. Please type or print all answers, using black or blue ink only. **All applicants must complete PARTS 1, 2, 3, 4 and 12.** Follow the line-by-line instructions to complete an accurate application. Answer questions that do not apply to your business with “N/A” for “Not Applicable.” Incomplete applications will be returned.

SPECIFIC LINE INSTRUCTIONS

PART 1 – REASON FOR APPLICATION

You will mark only one box in this section. Do not enter N/A. (If you are currently registered and are just adding another business location, do not complete Form CR-16; instead complete Form CR-17 only – see page 11.)

- **Registering for additional tax types.** Mark this box if the business is currently registered for one or more tax types and you are requesting registration for additional tax type(s).
- **Started a new business.** Mark this box if you are registering a new business. Do not mark it if you already have a registration and are adding another location or tax type.
- **Purchased an existing business.** Mark this box if you have purchased a business from another owner. In the spaces provided, enter the federal Employer ID Number (EIN) of that previous business owner.

PART 2 – TAX TYPE

Mark the box beside ALL the business taxes you are applying for and complete the required parts of the application listed for that registration/license. Use the following descriptions to make sure you register for all the taxes and licenses required.

- **Retailers’ Sales Tax.** *Engaged in selling tangible personal property or providing taxable services to the end user.*

Kansas imposes a state retailers’ sales tax of 6.5% plus local sales taxes on the 1) retail sale, rental or lease of tangible personal property; 2) labor services to install, apply, repair, service, alter, or maintain tangible personal property; and, 3) admission to places that provides entertainment, amusement, or recreation in Kansas.

A retail sale is an exchange of tangible personal property (goods, wares, merchandise, products and commodities) for money or some other consideration to the final user or consumer. Examples of taxable services include auto repair; painting, wallpapering or remodeling a commercial building; washing and waxing of vehicles; and pet grooming.

A city and/or a county in Kansas may levy a *local sales tax*, ranging from .10% to 3%. Kansas retailers are required to collect the combined state and local rate in effect where the customer takes delivery of the merchandise or where the taxable service is performed.

WHOLESALERS. If you are a wholesaler (all of your sales are to retailers for resale or to other wholesalers), you do not need a sales tax number. A wholesaler will purchase its inventory using a **Multi-Jurisdiction Exemption Certificate (ST-28M)** available from the department’s website.

CONTRACTORS. Contractors who pay sales or use tax on their materials and supplies and who work exclusively on

residential property generally do not need a sales tax number. Contractors who perform work on commercial property or on both commercial and residential property, and contractor/retailers who maintain an inventory of materials that they sell at retail without installing, must obtain a Kansas sales tax number in order to report the tax collected on taxable services and over-the-counter sales.

– **Retailers’ Compensating Use Tax.** *Out-of-state vendor selling tangible personal property to Kansas customers.*

Out-of-state retailers of tangible personal property who meet certain guidelines must collect and remit the state and local Retailers’ Compensating Use Tax from their Kansas customers. Examples include maintaining a Kansas sales office or delivering merchandise to Kansas customers using company vehicles. The rate of tax due is equal to the state and local sales tax rate in effect where the Kansas customer takes delivery of the merchandise.

– **Consumers’ Compensating Use Tax.** *Purchase of tangible personal property from outside Kansas for use, storage or consumption in Kansas on which a sales tax equal to the state and local sales tax rate in effect where the Kansas buyer takes delivery has not been paid.*

Individuals and businesses who buy goods from outside Kansas for their consumption, use or storage (not resale) may be subject to a compensating use tax. Imposed since 1937, Kansas consumers must pay this state and local use tax when buying items from online retailers, catalogs, mail-order businesses and other retailers if no sales tax is charged, or if the sales tax paid is less than the combined state and local Kansas tax rate in effect where the Kansas buyer takes delivery. If the sales tax paid in the other state is less than Kansas combined rate, the Kansas use tax is the difference between the two rates.

– **Withholding Tax.** *Deducted from wages, taxable non-wage payments and distributions by employers and payers.*

You must withhold Kansas tax if the recipient is a **resident** of Kansas, performing services inside or outside of Kansas or receiving other taxable payments on which federal withholding is required; OR a **nonresident** of Kansas, performing services in Kansas. If federal income tax withholding is required on a payment, Kansas withholding is also required.

– **Corporate Income Tax.** *Corporation engaged in business in Kansas or receiving income from Kansas sources.*

Corporate income tax is assessed against every corporation doing business in Kansas or deriving income from sources within Kansas. The corporate income tax consists of two rates: the **normal** tax is 4% of taxable income, and a **surtax** of 3% on taxable income over \$50,000.

– **Privilege Tax.** *Income tax paid on the net earnings of every bank, trust company, national banking association, federally chartered savings bank, and savings and loan association.*

The privilege tax consists of two rates: the normal tax is 2.25% of net income; the surtax is 2.125% for banks and 2.25% for savings and loans, trust companies, and federally chartered savings banks on taxable income over \$25,000.

– **Transient Guest Tax.** *Engaged in the rental of sleeping rooms at a hotel, motel or through an accommodations broker.*

Some Kansas cities and counties impose a transient guest tax (in addition to the sales tax) on the rental of rooms, lodgings, or other sleeping accommodations. A hotel, motel, tourist court, or any other establishment renting out at least three sleeping rooms within a city or county that has imposed a transient guest tax must collect and remit this tax on its room rentals.

Accommodation brokers must also collect any applicable transient guest tax when renting out at least two sleeping rooms.

– **Tire Excise Tax.** *Engaged in the retail sale of new tires or new vehicles.*

A tire excise tax of 25 cents per tire is due on new tires sold for vehicles authorized or allowed to operate on public streets and highways. New tires include the tires on a new vehicle sold for the first time. Used, recapped, and retreaded tires are not subject to the tire excise tax.

– **Vehicle Rental Excise Tax.** *Engaged in the rental of motor vehicles.*

Kansas imposes a 3.5% vehicle rental excise tax on the rental or lease of a motor vehicle not exceeding 28 consecutive days. This excise tax is in addition to the state and local retailers’ sales tax.

– **Dry Cleaning Environmental Surcharge.** *Engaged in the laundering and dry cleaning of garments and household fabrics.*

The dry cleaning environmental surcharge is 2.5% of the gross receipts received from dry cleaning or laundering services. The surcharge is in addition to the state and local retailers’ sales tax. A fee is also imposed on the sale of dry cleaning solvents (chlorinated and petroleum-based) by solvent distributors.

– **Liquor Enforcement Tax.** *Engaged in the sale of alcoholic liquor for consumption off the premises.*

Kansas imposes an 8% liquor enforcement tax on alcoholic liquor cereal malt beverage and nonalcoholic malt beverage sold by retail liquor stores, microbreweries, microdistilleries, farm wineries farm winery outlets and producers to Kansas consumers, and alcoholic liquor and cereal malt beverages sold by distributors to Kansas clubs, caterers, or drinking establishments. A retail liquor store, microbrewery, microdistillery, farm winery, farm winery outlet, distributor, or special order shipper must also have a liquor license issued by KDOR’s Division of Alcoholic Beverage Control (785-296-7015). If selling other goods and services other than alcoholic and CMB, the business must register for and collect Retailers’ Sales Tax.

CMB retailers may also sell beer not more than 8% alcohol by volume in addition to CMB. These CMB retailers will collect the applicable state and local sales tax on the sale of both CMB and beer. For additional information see [Notice 18-04](#).

– **Liquor Drink Tax.** *Engaged in the retail sale of alcoholic liquor for consumption on the premises.*

Kansas imposes a 10% liquor drink tax on the sale of drinks containing alcoholic liquor by clubs, caterers, or drinking establishments. A club, caterer, or drinking establishment (including farm wineries, microbreweries, microdistilleries and producers selling to customers for on-premises consumption if they possess a club or drinking establishment license) must also:

- have a liquor license issued by the Division of Alcoholic Beverage Control, 785-296-7015;
- have a Kansas retailers’ sales tax number; and
- post a bond of \$1,000 or three months average liquor drink tax liability, whichever is greater.

– **Cigarette Vending Machine License and Permit.** *Operators’ master license and permit for owners of cigarette vending machine(s).*

Each cigarette vending machine in Kansas must have a permit. Permits are \$25 per machine and must be renewed every two years. With form CR-16 you must enclose [Cigarette](#)

Vending Machine Listing (CG-83) and list the serial number, machine manufacturer's name, and physical location for each machine. Cigarette vending machine owners must also have a cigarette vending machine operator's master license (no fee required), and a Kansas Retailers' Sales Tax Registration.

– **Retail Cigarette/Electronic Cigarette License.**
Engaged in the retail sale of cigarettes and/or electronic cigarettes (In-state and out-of-state retailers).

All retail cigarette and electronic cigarette dealers, whether located inside or outside Kansas, are required to have a retail cigarette/electronic cigarette license. The license fee is \$25 for each location and must be renewed every two years. All Kansas cigarette/electronic cigarette retailers must also have a Kansas Retailers' Sales Tax Registration; out-of-state retailers must have a Kansas Retailers' Compensating Use Tax Registration. Special rules apply to cigarette sales to Kansas residents over the internet, by telephone or mail order; see our **Notice 04-04**.

If you are a *distributor or manufacturer of consumable material*, or if you are a *retailer who sells consumable material* on which the consumable material tax has not been paid, you must complete and submit **Application for Consumable Material Tax Registration (EC-1)**, to the Department of Revenue. This form is available on our website.

– **Nonresident Contractor.** *A nonresident business engaged in constructing, altering, repairing, or dismantling real or personal property in Kansas.*

Contractors and subcontractors who are not residents of Kansas must register and be bonded for each contract performed in Kansas when the total contract price or compensation received is more than \$10,000. This registration (PART 11) is in addition to a Kansas sales and withholding tax registration. However, this requirement is waived if a nonresident contractor is a foreign corporation authorized to do business in Kansas by the Kansas Secretary of State.

CAUTION: Any nonresident contractor or subcontractor who fails to register or comply is not entitled to recover, by way of Kansas courts, payment for performance of the contract. Failure to register and post the required bond is a misdemeanor offense; upon conviction a nonresident contractor or subcontractor may be fined not less than \$100 nor more than \$5,000.

– **Water Protection and Clean Drinking Water Fee.**
Collected by public water suppliers engaged in the retail sale of water delivered through mains, lines, or pipes.

The Water Protection Fee is three cents per 1,000 gallons of water. An additional fee for the inspection and regulation of public water supplies of \$0.002 per 1,000 gallons of water is remitted with the Water Protection Fee. The Clean Drinking Water Fee is three cents per 1,000 gallons sold at retail. Public water suppliers also need to register with the Kansas Department of Health and Environment.
